

Kids of Cameroon

They like to play and have fun and explore the world around them.

The kids in Cameroon are very much like the kids in the United States.

They live with their families in a home that is made of mud blocks and grass, or a home built out of cement.

They like to dress up and wear clothes that have bright colors.

They like to sing and dance.

They go to school and learn how to read and write.

The kids in Cameroon have chores they do in the home.

They help in the kitchen, with cooking meals and washing dishes.

They help in the garden

They like to play games. Especially chess and soccer.

They live very simply, and do not have many of the things other kids have. But they are very creative, and often make toys of their own to play with.

and with washing clothes or fetching water from the pump

There is a lot of work to do, and the kids learn at a very young age to help out

But most of all it is important to point out that the kids of Cameroon have a spiritual need. . .they need to hear about Jesus!
